The Ministry's Purpose

To bring together individuals that have a common belief in God, moral and ethical values by;

1. Encouraging, promoting and offering healthy spiritual services and physical lifestyle services for its Members.
2. Encourage its Members to participate in health and wellness programs.
3. Educate its Members in religious teachings in regards to health and wellness matters.
4. Sponsor a faith-based health sharing program for its Members.

The Freedom Health brings together individuals based on the following shared religious, ethical and moral values:

- We believe that our personal rights and liberties originate from God and are bestowed on us by God.
- We believe every individual has a fundamental religious right to worship God in his or her own way and faith.
- We believe it is our ethical obligation to assist our fellow man when they are in need according to our available resources and opportunity.
- We believe it is our spiritual duty and ethical duty to others to maintain a healthy lifestyle.
- We believe it is our fundamental right of conscience to manage our own healthcare, in consultation with physicians, family or other valued advisors.

Our religious beliefs form the moral, spiritual and ethical basis for our interaction and relationship as a community. We make a somber and significant pledge to one another that we will aid, support and devote available resources to one another in this most personal area of our life, our and our families healthcare!

*If you agree with these fundamental principals and values then
Freedom HealthShare™ is meant for you!*
